## SUMMARY

Android Developer with 9+ years of hands-on experience in building robust mobile apps using Kotlin, Java, and Flutter. Proficient in MVVM, Jetpack Compose, Dagger/Hilt, and Clean Architecture. Adept in Agile environments with a track record of leading teams and delivering high-quality code with 90–95% test coverage. Recognized with the ACE Award at Accenture and currently contributing to large-scale projects like Lowe's and Disney Cruise at EY.

## EXPERIENCE

06/2023 - Present

Bengaluru, Karnataka, India

### Senior Consultant – Android/Flutter Developer

#### EY LLP Services Pvt Ltd

- Developed and maintained production-grade apps for Nike, Lowe's, and Disney Cruise Line using Kotlin, Jetpack Compose, and Flutter.
- Delivered scalable features with 90–95% test coverage, integrated analytics, and optimized user experience for apps with 1M+ downloads.
- Actively fixed bugs, improved app performance, and refactored code to enhance re-usability and maintainability across all projects.

#### Key Projects:

- Nike App:** Migrated event module to Jetpack Compose, implemented calendar/event features, click-stream tracking, and performed release testing and provided production support for incident resolution.  
[Nike App Link](#)
- Disney Cruise Web App:** Built reusable UI components in Flutter, integrated local APIs, followed Figma specs, and maintained 80%+ test coverage.  
[Disney Cruise Link](#)
- Lowe's PROvider App:** Implemented automation testing with Petrol, refactored image upload feature for reusability, and enhanced modularity.  
[PROvider App Link](#)
- Lowe's App:** Delivered Reviews, Q&A, enhanced cart functionality, integrated Firebase and Gauge analytics, and optimized code and UI performance.
